

PRESAFE – YOUR KEY TO MARKET ACCESS

Testing, inspection and certification of
equipment for use in explosive atmospheres

GET GLOBAL MARKET ACCESS!

Products face ever-increasing demands on innovation, quality and profitability.

Products can only be placed on market if they meet regulatory requirements and safety standards.

The safety and quality of your products can be proved through Presafe as a trusted independent third party - Europe and worldwide.

PRESAFE OFFERS

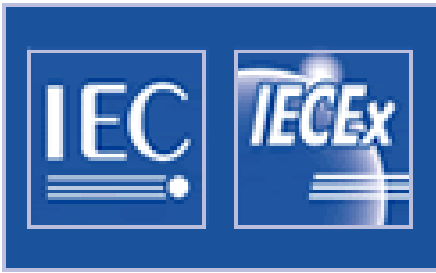

- Experienced and highly skilled team of experts
- Time-efficient projects
- Guidance and support in all steps
- Testing and examination both in our own laboratory and at manufacturing site/in the field
- Global network through DNV GL

OUR SERVICES

- Support/Guidance
- Pre-evaluation and design review
- Testing
- ATEX and IECEx Certification
- QAN/QAR
- Inspection services /Verification
- IECEx service facilities
- Training and courses

Protection areas

• General requirements		IEC/EN 60079-0
• Flameproof enclosures	Ex d	IEC/EN 60079-1
• Pressurized enclosures	Ex p	IEC/EN 60079-2
• Powder filling	Ex q	IEC/EN 60079-5
• Oil immersion	Ex o	IEC/EN 60079-6
• Increased safety	Ex e	IEC/EN 60079-7
• Intrinsic safety	Ex i	IEC/EN 60079-11
• Protection "n", electrical apparatus	Ex n	IEC/EN 60079-15
• Encapsulation, electrical apparatus	Ex m	IEC/EN 60079-18
• Optical radiation	Ex op xx	IEC/EN 60079-28
• Dust ignition protection by enclosure	Ex t	IEC/EN 60079-31
• Non-electrical equipment		ISO/IEC/EN 80079-36/37

IECEX

Presafe is a Certification Body

Accredited according to international standards and schemes.

All ExCB and ExTL undergoing peer assessment.

For IECEx scheme, Presafe offers:

- Certification of electrical and non-electrical equipment.
- Certification of service facilities (workshop)
- Certification of personnel
- Inspection of installations
- Quality Assessment Report (QAR)

ATEX

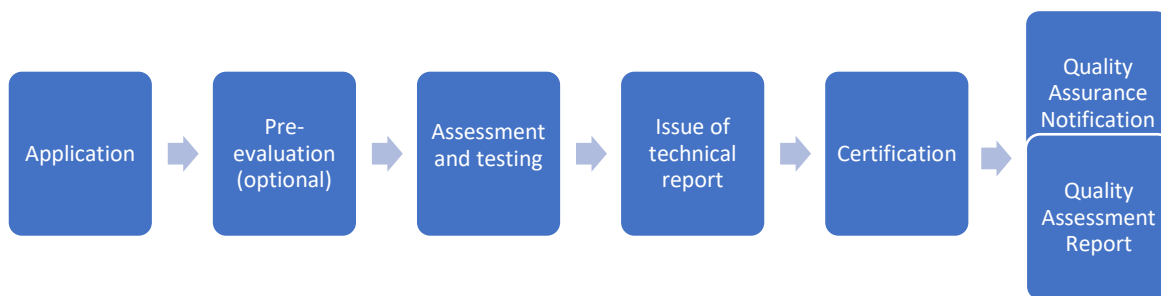

Presafe is a Notified Body, 2460

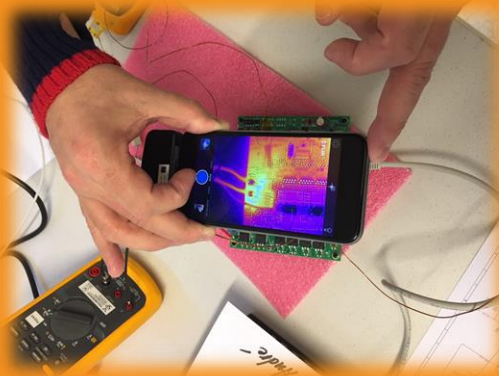

Accredited according to international standards and schemes.

The ATEX directive requires a Notified Body to perform the conformity assessment of equipment. Notified Bodies are appointed by national authorities

For ATEX directive, Presafe offers:

- Certification of electrical, non-electrical equipment and protective systems.
- Quality Assurance Notification (QAN)

Presafe is 100% owned by DNV GL Business Assurance.

DNV GL works with assurance of products, processes and organizations through certification, assessment and training services.

Presafe is a global accredited testing and certification body.

We perform tests in our test laboratory located in Norway, dedicated specially to products for use in potentially explosive atmospheres.
