

PRESAFE IECE_x CERTIFICATION OF PERSONNEL COMPETENCE

IECE_x CoPC is recognized international system for the certification of personnel competence for work in potentially explosive atmospheres. This system confirms competence of individuals assessed by a third party (Ex Certification Body).

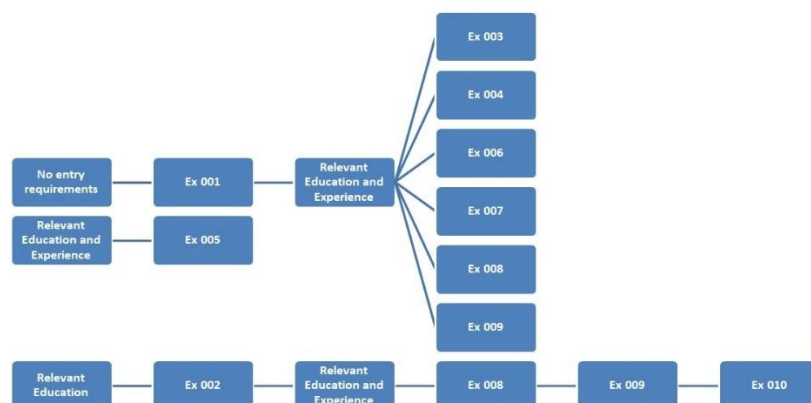

Why IECEX CoPC?

- Plant owners & operators are responsible for the installation and have to ensure that their personnel/hired personnel have the competence to carry out the work in a safe manner.
- IECEX CoPC assessing the competence of individuals according to IECEX rules, operational procedures and ISO 17024.
- ExCB will issue a Certificate of Personal Competence based on a successful assessment.
- Presafe and our scope is listed on the IECEX online system (for more information visit: www.iecex.com)

GRADES OF COMPETENCIES

The IECEX CoPC scheme consists of 10 units of competencies.

All units are assessed by an IECEX approved ExCB for IECEX 05.

Presafe offers personnel certification for IECEX CoPC unit Ex001 “Apply basic principles of protection in explosive atmospheres”. A certificate holder of this unit has demonstrated his basic knowledge in the following areas:

- Explosive atmospheres and explosion-protection principles
- Explosion-protected equipment – Ex certification schemes
- Explosion-protected equipment – Principles
- Explosion-protection visual checks
- Explosion-protection techniques: Ex ‘d’, Ex ‘e’, Ex ‘n’, Ex ‘m’, Ex ‘o’, Ex ‘q’, Ex ‘i’, Ex ‘p’, Ex ‘t’, Ex ‘iD’, Ex ‘pD’ and Ex ‘mD’ (limitations may apply)
- Common characteristics of explosion-protection techniques

Application - Exam - Certificate

For guidance and application please contact Presafe at ex@presafe.com

DOCUMENTATION OF COMPETENCIES
